Precautions

Warning: Please do not power cycle the device during system boot up or firmware upgrade. You may corrupt firmware images and cause the unit to malfunction.
Warning: Use only the power adapter included in the device package.
Using an alternative non-qualified power adapter may possibly damage the unit.

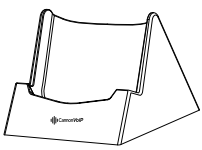

Overview

The VoIP-1 is a portable and elegant Wi-Fi phone designed for mobile communication applications.
It comes with built-in dual-band 2.4GHz/5GHz Wi-Fi, enabling stable and efficient communication in various wireless network environments. Additionally, it incorporates Bluetooth 5.0 for effortless pairing with headsets and mobile devices. The device is widely used in wireless scenarios such as enterprises, shopping malls, residential areas, hotels and warehouses, providing users with a high-quality mobile communication experience.

Quick Installation Guide

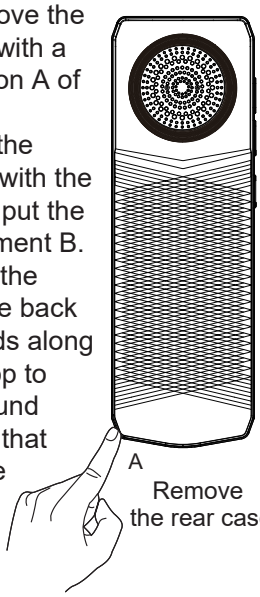

Keys description

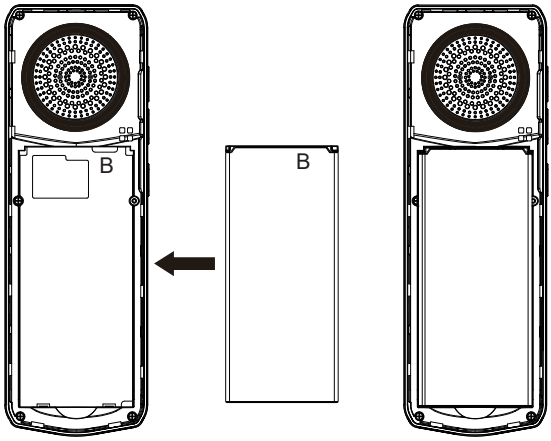

Note: Cannon VoIP sets your phone up for you. For help with any setting, call 888-973-0515 or email info@cannonvoip.com.

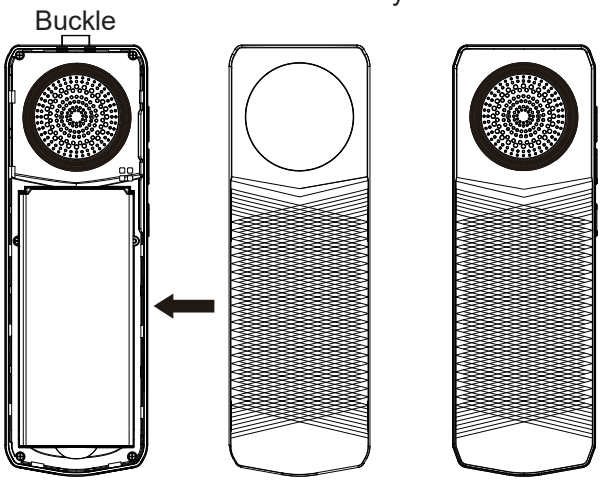

Install the battery

1. **Remove the rear case:** Remove the rear case of the whole machine with a little force from the handle position A of the rear case of the main unit.
2. **Install the battery:** Take out the battery from the packaging box, with the battery with the notch facing up, put the battery B at the battery compartment B.
3. **Install the back cover**: Align the back cover with the buckle on the back of the main unit, press your hands along the edge of the main unit from top to bottom (there will be a "click" sound during the process), and ensure that there is no gap, it means that the back cover is fastened.

Install the battery

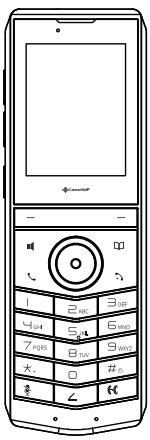

Install the back cover

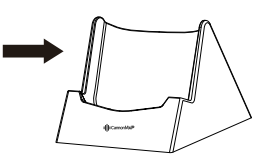

Turn on the phone

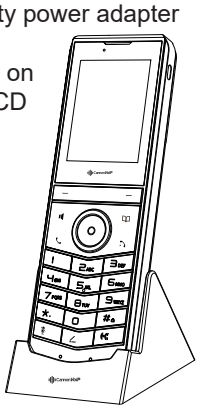

1. Press and hold the On-hook/Power key until the screen lights up. Press and hold it again to turn the phone off.
2. Charge the handset fully on the charging base before you use it the first time.

Connect the charging base

Note: 1.Use original factory supplied power adapter (5V/2A). A third-party power adapter may damage the handset.
2.Check the charging status on the top-right corner of the LCD screen.

Connect Wi-Fi

1.Enter [Menu] > WLAN, and enable the WLAN.
2.Select an available network and click to enter.
3.Select the corresponding Wi-Fi network from the Wi-Fi list, click connect, and enter the password.
4.After clicking OK, the Wi-Fi connection is successful, and the corresponding Wi-Fi display will show √.

Setup

Your VoIP-1 is set up by Cannon VoIP before it ships. Once it is on your Wi-Fi it registers on its own and is ready to use in a few minutes. There is nothing to configure on the phone.

Warning

Do not use above 35℃ while the battery is charging.

- Please dispose of lifeless battery under guidance.
- Recycle your device.
- Replacement of a battery with an incorrect type that can defeat a safeguard (for example,in the case of some lithium battery types).
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Regulatory Compliance
Federal Communication Commission (FCC) — USA
This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if it is not installed and used in accordance with the instruction manual, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Warning: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:
The device has been tested and comply with FCC SAR limits. And keep the device minimum 0mm from the body when normal use.

All transmission frequencies of U-NII-1,U-NII-2A,U-NII-2C and U-NII-3 comply with 47 CFR FCC Part15.407(g) and the manufacturer declares that their transmission is maintained within the U-NII-1, U-NII-2A,U-NII-2C and U-NII-3 bands.
